

West Valley Recycles!

Recycle Right!

West Valley Collection & Recycling delivers all of the recyclables we collect from the Cities of Campbell, Monte Sereno, Saratoga and the Town of Los Gatos to a Material Recovery Facility (MRF) located in San Jose.

To make their job easier we ask you to please place only recyclable materials inside your white recyclables bin or blue recyclables cart. For a list of recyclable items visit

www.westvalleyrecycles.com

You can also request a guide be mailed or delivered to you.

A few tips to Recycle Right include...

Place only recyclable items inside your container

Recyclables should be free of all food & liquid

Break down cardboard boxes for more space

Keep bin lids closed

West Valley Recycles!

Reminder: it is illegal to place hazardous waste inside your garbage or recycle bin at your property. If hazardous waste is found in your bin, it will not be serviced until it is removed.

Hazardous Waste such as car batteries, fluorescent light bulbs, oil filters, paints, televisions, and more cannot go into your garbage or recycling container. For a list of hazardous waste please visit our website www.westvalleyrecycles.com or contact the Santa Clara County Household Hazardous Waste Program at **(408) 299-7300**. Larger quantities will need an independent hauler.

Businesses that generate small quantities of hazardous waste (less than 220 lbs or 27 gallons of hazardous waste per month) may qualify to use the County's Conditionally Exempt Small Quantity Generator (CESQG) program. To apply please visit www.hhw.org.

Remember to close the lid on your container or Carts and Bin!

Trash is a significant pollutant of California's waters that adversely affects aquatic life, wildlife, and public health. Trash from open carts and bins has a direct path to our storm drains which goes into our local creeks and the San Francisco Bay. The answer is simple. "Put a lid on it" by keeping the lid closed on garbage containers that are stored outside.

All businesses can apply good housekeeping practices in their trash container areas. Here are a few more tips!

- Keep garbage and recycling bin lids closed. This will prevent the contents from blowing out of the bin and keep out rainwater.
- Don't overfill the bin. Instead, increase service if there is overflow.
- Clean up all spills and leaks immediately using a spill kit with a dry absorbent.
- For more information, please visit our website at www.cleancreeks.org.
