

New services for multi-family

Under the new rate structure, each property will now be provided minimum service levels as shown below. Instead of charging by the size and frequency of containers, you will be billed \$49.30 per dwelling unit at your property.

10 gallons of organics collection service per unit/per week

20 gallons of recycling service per unit/per week

20 gallons of landfill/garbage service per unit/per week

If you find the minimum is not enough for your property, more service is available at no additional cost, so just ask. We want to make sure you have plenty of service to keep your property clean and that your tenants can recycle and compost as much as they need.

Take advantage of these new services!

- On-call bulky cleanups (one per unit, per year)
- Household battery collection
- Move-in kits, including kitchen pails, recycle tote bags, and educational materials
- Free pull-out service for openly accessible containers under 25 feet
- Unlimited organics, recycling, and landfill service

Effective July 1, 2024

West Valley Recycles is implementing a comprehensive new program for multi-family properties. Your property will be provided a minimum level of organics, recycling, and landfill service based on number of dwelling units to ensure that there is adequate service for all your tenants.
